

Building Health, Building Home

Our 2025 Report to the Community

Welcome to a joint update from **Winchester District Memorial Hospital**, the **WDMH Auxiliary**, **Dundas Manor Long-Term Care Home** and the **WDMH Foundation**. It's our annual opportunity to share some of the highlights from the past year and to thank our local communities for your incredible support. We also want to thank our healthcare teams for their commitment to the very best care.

Let's Celebrate This Season

Winchester District Memorial Hospital has so much to celebrate this season! Over the past year, WDMH has introduced new Rheumatology, Dermatology, and Pulmonary Function Testing clinics, to provide more specialized care to our patients. We also launched the innovative Molli Seed Breast Cancer Localization Program; a less-invasive, more comfortable way to help care for patients with breast cancer.

Another major achievement: WDMH successfully completed its first breast biopsy procedure. Patients can now receive everything from initial screening and follow up to biopsy and surgery, all under one roof, close to home.

For more information visit our website www.wdmh.on.ca or follow us on social media.

Like a Warm Hug

As winter approaches, we are reminded of the warm and reassuring support that Winchester District Memorial Hospital receives from the WDMH Auxiliary. Thanks to the tireless efforts of its members, the WDMH Auxiliary was able to provide the following gifts to the hospital:

- Two ultrasound probes \$19,717.76
- One vending machine with debit \$20,250.00
- Hot/Cold table for Food Services \$17,000.00
- Three beds for the medical surgical unit \$33,935.00

Moving forward, the Foundation will take care of administrative and financial responsibilities for the Auxiliary, so our dedicated volunteers can focus on what they love most, hosting activities and events that support our hospital.

There's Snow Place Like Home

Garland, twinkle lights, and cozy throws are just some things that are adding to the coziness of Dundas Manor this winter.

As residents settle in, the construction team presses on and remains on schedule; residents can look forward to moving into their new home in September 2026.

The new home is now over 70% complete, marking a major milestone in the redevelopment journey. To date an impressive \$15 million has been raised thanks to the generosity of our community and supporters. The Foundation remains steadfast in its efforts to reach the ultimate fundraising goal of \$18 million.

Cold Days, Warm Hearts

In 2020, Dale and Lois Keys made a heart-warming donation of one million dollars to help purchase a new CT scanner for WDMH. This state-of-the-art machine is now installed and provides faster, more efficient scans, uses lower radiation doses, and delivers higher-quality images. WDMH performs more than 9,000 CT scans each year, making this an essential part of health care close to home.

Thanks to the unwavering support of our community, the WDMH Foundation has also funded the equipment on the right to enhance patient care at Winchester District Memorial Hospital.
